

EXPANDING THE BORDERS OF THE INVISIBLE

April 29 – May 2, 2027, Tashkent, Uzbekistan

INVEST IN THE YOUTH

A support programme for young radiologists

The support programme for young radiologists is a special programme of the 25th Asian Oceanian Congress of Radiology, held jointly with the Congress of the Uzbekistan Radiology Society. It is directed at supporting young specialists, developing their professional potential and creating opportunities to take part in the international radiological community.

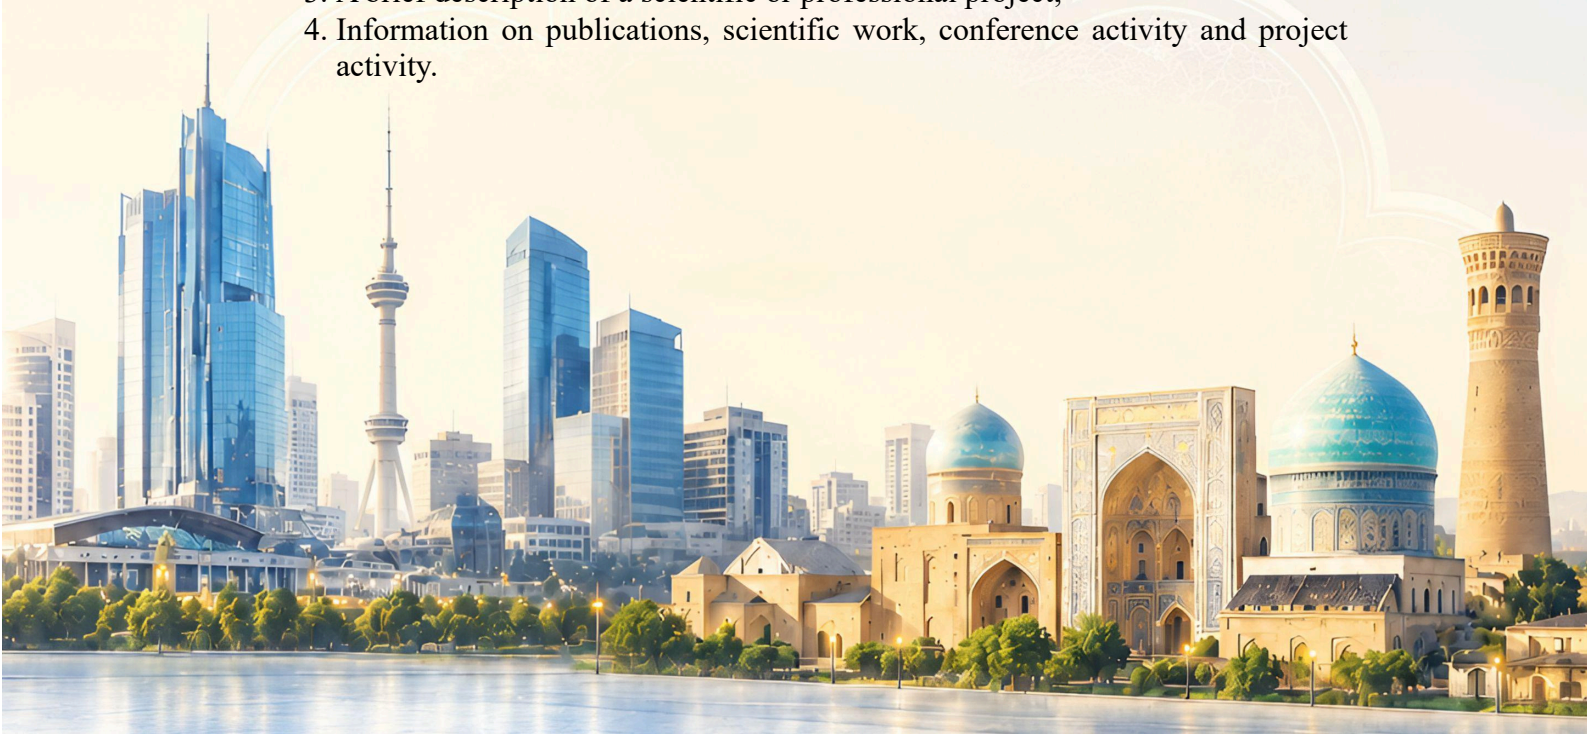

The programme is intended for young radiologists, researchers and specialists in the field of medical imaging who are actively developing in clinical, scientific, educational or project activity.

Candidates who meet the following requirements may be admitted to the programme:

- age — up to and including 35 years;
- professional or academic activity in the field of radiology or medical imaging;
- participation in scientific, clinical, educational or innovative projects;
- research or project work will be an advantage;
- motivation for professional development and international cooperation.

Candidates are required to provide:

1. A short curriculum vitae (CV);
2. A motivation letter;
3. A brief description of a scientific or professional project;
4. Information on publications, scientific work, conference activity and project activity.

EXPANDING THE BORDERS OF THE INVISIBLE

April 29 – May 2, 2027, Tashkent, Uzbekistan

Applications will be reviewed by an independent selection commission. The assessment will take into account:

- professional achievements;
- scientific and publication activity;
- the quality and potential of the project submitted;
- the candidate's motivation;
- the potential for further professional development;
- the candidate's contribution to the development of radiology.

Particular attention will be given to candidates who demonstrate high potential and a readiness to develop actively within the international professional community.

Depending on the programme category, selected participants may be provided with:

- free participation in the 25th Asian Oceanian Congress of Radiology, held jointly with the Congress of the Uzbekistan Radiology Society;
- the opportunity to present their own project or scientific work;
- participation in special educational events;
- a certificate of participation in the programme;
- grant support for accommodation (2 nights) for the winners.

The number of grants and the volume of financial support will be determined by the AOCR 2027 & URS Organising Committee.
